

Sixteen Jingle Bells in space

The first song ever played in space was heard on 16 December 1965. In true Christmas spirit this song was Jingle Bells.

Following the song, the astronauts played a joke on Mission Control, telling them that they could see Santa and his sleigh travelling from north to south across the sky!

You can win: A £100 John Lewis gift card.

Jingle all the way

Compass Business Finance is an independent finance company with an innovative and relational approach to the market. Established in 2005, it helps businesses navigate the financial landscape, providing flexible and competitive funding solutions enabling their long term success.

The company is passionate about the success of your business. Having worked with numerous smaller businesses, the team at Compass knows that your time is finite, so it makes the process as easy and straightforward as possible by removing all unnecessary complexities. It will help and guide you every step of the way, to support you and ensure you have complete peace of mind.

Compass Business Finance takes a relational rather than transactional approach to doing business, valuing its team, its customers and its partners, so that it can provide you with the best possible products, service and experience now and into the future.

Question: Name two of Compass Business Finance's six core values.
